

GIVE YOUR PUMP A NEW LEASE OF LIFE

RETROFITTING AND OVERHAULING SOLUTIONS

TIME FOR A MAKEOVER

Retrofit is an economical alternative by making old new again. Retrofit increases the efficiency of pumps. New environmental regulations, tougher competition for more efficient and reliable equipment and technological advances contributed greatly to the popularity of retrofit as a solution to aging pump systems.

Through its retrofit services, Sintech Pumps gives your pump a second life by improving reliability, minimizing costs and adapting performance to changing processes. Sintech provides tailored solutions that add sustainable value to your equipment.

Sintech provide solutions which are applicable on Sintech and 3rd party pumps, performed on virtually any piece of pump regardless of age and available as engineered and standard solutions.

BENEFITS

Improve Reliability

Sintech matches duty requirements of your pump to increase component life and reduce maintenance costs, overall improving the availability of the system.

Minimize Costs

Sintech retrofitting & overhauling solutions improves the pump efficiency which is crucial to minimize the operational costs.

Maximize Revenue

Sintech retrofit to re-rate a pump is a cost-effective answer to increasing throughput without the expense and time required to install new equipment.
